Projects:

- **E-Voting System**
  Technology: Python, HTML, CSS, JavaScript, Django
  Database: phpMyAdmin
  Framework: Django
  Description: This website was created for voter, political parties and election commission. With the help of this user can generate and verify his voter id car, and voter can vote for his candidate. Political parties can make their advertisements and register their candidate and publish our manifesto for public. For Election commission can easily verify the candidate nomination form and easily count votes and declare winners.

- **Portfolio**
  Technology: HTML, CSS, JavaScript
  Framework: ReactJS
  Description: A portfolio is a compilation of academic and professional materials that exemplifies your beliefs, skills, qualifications, education, training, and experiences. It provides insight into your personality and work ethic. Choosing the most relevant academic and professional experiences and putting them in an easily understood format will show an employer proof of your organizational, communication, and tangible career-related skills.

- **ACME Web Design**
  Technology: HTML, CSS
  Description: ACME is a professional and sophisticated one-page education website for schools, universities, online courses, and more. It is a versatile tool that you can employ for various purposes out of the box. And when you introduce your branding regulations, as well as additional customization tweaks, you can take ACME to a whole other level. You can now speed up the process of developing and establishing a striking web space thanks to the fantastic ACME.

- **E-Banking System**
  Technology: **C# and ASP.Net**
  Database: MySQL
  Description: This project was created to simplify the banking system. By using this website the customer can easily access the banking system from the comfort of his/her home and can easily apply for any process of banks like account opening and closing, passbook issue and printing, money transfer, apply for the loan and get the information about the benefits of all through this website.
